MAXIMILIAN PLANS FOR NEW DRIVE TO END WAR

Reichstag Peace Resolution of July, 1917, to Be Reaffirmed by Chancellor, Who Is Said Not for Annexations

HOLLAND DENIES ANY INVITATION FOR PARLEY

Dr. W. S. Solf Appointed Imperial Foreign Secretary; Another Centrist and Socialist Chosen by New Regime

PARIS, Oct. 5.—The Reichstag peace resolution of July, 1917, will be reaffirmed by Chancellor Max Baumbach, according to a dispatch to the new German imperial chancellery, according to information here. The new chancellor is expected to indicate desire for a speedy peace.

THE HAGUE, Oct. 5.—Holland has not invited the belligerents to negotiate for peace, it was declared by the foreign office today. There is not a word of truth in the statement of the Berlin Tageblatt to that effect, the official announcement states.

MAXIMILIAN PLANS PEACE OFFENSIVE

PARIS, Oct. 5.—Prince Maximilian of Baden, the new German imperial chancellor, will declare against annexations in the west by Germany and in favor of the full restoration of Belgium, according to a dispatch to the Journal from Zurich. The restoration would be carried out by means of an international fund.

COPENHAGEN, Oct. 5.—Dr. W. S. Solf, German colonial secretary, has been appointed to the German imperial foreign secretaryship, it was officially announced in Berlin today. Matthias Erzberger, the centrist leader, has been appointed secretary of state without portfolio. Herr Bauer, socialist member of the Reichstag, has been named as secretary of state for the imperial labor office.

PRINCE BORIS TAKES REINS IN BULGARIA

LEADS WIRE TO TRIBUNE. BULGARIA, Oct. 5.—Down Prince Boris has assumed the reins of government in Bulgaria, following the abdication of King Ferdinand, according to a dispatch received from the official Korrespondenz Bureau in Vienna today.

AMSTERDAM, Oct. 5.—Replying to an alleged request by Austria-Hungary for a peace conference of all belligerents, Great Britain is reported to have demanded that the Austrian government explain what it means by a "non-committal conference."

Austria-Hungary's request was made through Holland, according to the Vienna correspondent of the Berlin Tageblatt. She asked that Holland place The Hague at the disposal of the belligerents. Holland promptly notified all belligerents, the correspondent said.

It is reported that Professor Lammasch, who, it is rumored, may succeed Austrian Premier Husarek, has prepared a memorandum stating Austria's conception of President Wilson's fourteen points, which will be sent to the latter.

The Cologne Gazette says that H. Agarlan Premier Wekerle, Count Tizian, Count Andrius, and Count Apponyi have arrived in Vienna in

NEW YORK IN PANIC, THOUSANDS ORDERED TO EVACUATE TOWNS

(By Associated Press)

NEW YORK, Oct. 5.—The city was again shaken at noon by another series of terrific explosions at Perth Amboy.

As a measure of precaution authorities ordered evacuation of all towns within ten miles of Morgan.

Refugees said that before the first explosion occurred last night they saw an aeroplane hovering over the Gillespie plant.

Announcement was made at the mayor's office at 3 o'clock this afternoon that the government has directed that all subway traffic be discontinued temporarily. An explosion, greater than any of the preceding ones that have been occurring intermittently all day at Morgan, New Jersey, is expected.

NEW YORK, Oct. 5.—Explosions, the last one shortly after noon being the worst to date, continued today at Morgan, N. J., where the shell-tossing plant of the A. Gillespie Company blew up last night. The great conflagration still rages.

It was estimated at the time this dispatch was written that the property damage now amounts to \$30,000,000.

No accurate list of the casualties has been made. Estimates vary from 100 to 200 dead, with as many as 1000 estimated injured.

At noon today Federal authorities ordered all the residents of Totenville, Staten Island, out of that vicinity. Totenville is just across the bay from Perth Amboy, which is north of Morgan.

All morning flying embers and burning shells fell in Totenville and it was decided to evacuate the town.

The panic-stricken refugees started for New York City. They first had to cross Staten Island and then take ferries across the harbor.

Orders to evacuate Sayreville township, which includes South Amboy and Perth Amboy, with an approximate aggregate population of 22,000 persons, were also issued by the military authorities. South Amboy is one mile from Morgan and Perth Amboy is three miles.

The intermittent explosions this afternoon made it impossible to fight the continually advancing flames. Grave fears are felt for the Oliver and California plants of the Du Pont Powder Company near Morgan. If these plants were to be destroyed, the evacuation would be a disaster.

The refugees arriving in downtown New York City this afternoon from the evacuated towns of New Jersey made a scene paralleling the fate of the Belgians when they fled before the invading German hordes.

Bombing and shelling of northern New Jersey and Totenville, Staten Island civilians were unaided at the Battery and taken under the care of local Red Cross organizations. When the refugees arrived, they were given food and shelter.

Haggard women with infants in their arms bore mute evidence of the horrors of the night. They were forced to undergo from the bombardment. One refugee woman said that her home was brought down into a mass of lava. Another said she saw a man killed by a shell.

At the time she was preparing to die with her children to Elizabeth, N. J. At a personal risk almost as great as on a battlefield, hundreds of soldiers, sailors and plant guards are engaged in a desperate fight to save the Oliver and California munitions plants, near that owned by the Gillespie company. Both plants are reported to be in grave danger.

THEY ACCIDENTALLY SAYS HEAD OF PLANT. Vice-President Yates of the Gillespie company shortly after noon said that 500 men were in the building when the first explosion occurred.

He expressed a belief that not more than 90 of the 500 men were killed, but admitted that he was unable to make a positive statement.

"The explosion and fire which wrecked our plant at Morgan, N. J., was purely an accident," said T. A. Gillespie, president of the Gillespie Company.

"It was not due to carelessness on the part of any one, and there is no suspicion of German work," the statement continued. "There is no ground for the fear expressed over a large quantity of T. N. T. It is safely buried under a big hill far out of the danger zone."

The total number of casualties will reach 800, including the dead, severely injured and slightly injured by flying glass and debris, a New York evening newspaper estimated at noon today. Of these 800 are estimated to be in hospital cases. Explosions in the Gillespie plant at Morgan were distinctly felt in New York, twenty miles distant. They were even re-

ported in New York City. The explosion and fire which wrecked our plant at Morgan, N. J., was purely an accident," said T. A. Gillespie, president of the Gillespie Company.

"It was not due to carelessness on the part of any one, and there is no suspicion of German work," the statement continued. "There is no ground for the fear expressed over a large quantity of T. N. T. It is safely buried under a big hill far out of the danger zone."

(Continued on Page 2, Col. 1)

Toll of Life and Property Is Reckoned

Between 50 and 200 dead as result of the Morgan, New Jersey, munition catastrophe.

Injured, both seriously and slightly, total hundreds and may reach a thousand.

Property damage to the plant, munitions destroyed and other damage estimated at \$30,000,000.

Totenville and towns near Morgan have been evacuated. Refugees flock to New York by hundreds.

Approximately fifty explosions, greater and lesser, have been intermittent since 7:30 p. m. last night.

Martial law is in force in the stricken district.

Lives Lost on U.S. Warship And Steamer

AN ATLANTIC PORT, Oct. 5.—

News has been received that the United States coast patrol, No. 379, has been lost near this port. The vessel sank, bow first, from some cause as yet unknown. Rescue vessels have been sent to the scene.

Later it was learned that the patrol cruiser was the victim of an internal explosion. One boat load of men downed in the sinking vessel has been rescued, but whether the rest have been saved is not yet known.

The patrol carried a complement of 55 officers and men.

NEW YORK, Oct. 5.—The new American steamship Lake City was sunk in collision with the oil tanker James McGee, off Key West Thursday night, according to information received in maritime circles here today. The majority of the crew, it was said, was lost.

WASHINGTON, Oct. 5.—The American cargo steamer San Saba, of the Mallory line, was sunk yesterday fifteen miles southeast of Key West, according to information received here today. It is supposed the ship struck a mine. How many of the crew were rescued is not yet known.

A steamer proceeding to New York reported that she picked up four men and one dead body from the wreckage. Naval vessels were immediately sent to the scene to search for possible survivors and to sweep the vicinity for mines. The San Saba was of 2458 gross tons.

MADRID, Oct. 5.—The government requisitioned steamship Franco has been torpedoed fourteen miles off Cape Palos, it was officially announced here.

28,900 Feet, New Record in Altitude

CHICAGO, Oct. 5.—For the first time since Lincoln Beachey's altitude record of 11,642 feet was bettered, the world's record for altitude flight in an airplane was held by an American—officially promulgated by the Aero Club of America.

The new record of 28,900 feet was made at Wilbur Wright field, Ohio, by Captain R. W. Schroeder, in a Bristol fighter.

GERMAN CHANCELLOR SEEKS PEACE; KAISER'S ARMIES MAY BE CUT OFF

AMERICANS DESERTERS RENEWED DRIVE IN ARGONNE FOREST MAKES WIDE GAIN

PARIS, Oct. 5, 4:15 p. m.—Franco-American troops, driving northward against Vouziers, are now within less than five miles of that important German base. Enemy long range guns covering Vouziers, which had been installed near Sugny and between St. Etienne and Semide, are being hastily withdrawn.

The Germans are reported to be evacuating the entire Moronvillers Grove.

General Debeny is tightening his grip on the Oise region, south of St. Quentin, and is increasing his pressure against the northern defenses of Laon and the St. Gobain massif.

1:10 p. m.—American troops attacked again this morning between the Meuse and the Argonne along an extended front. The advance at some points has reached more than a mile and several villages have been taken.

12:55 p. m.—The great American and French advance in the Champagne district has forced the Germans to evacuate Taistrart and Melonville, the war office announced this afternoon. By the French advance on the Aisne canal and the Franco-American drive just west of the Argonne, a large force of Germans was in peril of being pocketed and retreated to save themselves.

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 5, noon.—Cuneil and Romagne were captured by the Americans today. Cuneil, approximately sixteen miles northwest of Verdun, and Romagne is a little more than a mile west of Cuneil.

10 a. m.—Furious fighting continued today along the whole fifty mile front in the Champagne-Argonne region.

Heavy artillery fire is supporting the infantry assaults. The weather is ideal and there is a stupendous amount of aerial activity.

Violent German counter-attacks in the region of Fleville, on the eastern edge of the Argonne forest, were repulsed last night.

LONDON, Oct. 5 (4:22 p. m.).—American forces, attacking on an eight-mile front between the Meuse and Aisne rivers, have advanced two miles today, battlefront despatches reported this afternoon.

It is estimated that the Americans today have taken between 3000 and 4000 prisoners in the Argonne-Meuse fighting.

1:35 p. m.—The Germans are fighting desperately in the Champagne for every inch of ground, because of the great number of valuable communication lines behind the front. Battlefront despatches declared today.

The opposing armies are swaying to and fro and the battle is described as one of "unstable equilibrium."

North of St. Quentin the allied area is being gradually widened, but the Germans are fighting hard and progress is slow.

1:12 p. m.—Franco-American forces have definitely broken through the whole front of the enemy's defensive line behind the Sulpice river, west of the Argonne, according to battlefront despatches received this afternoon.

South of the Aisne the German retirement before General Mangin's

9-MILE GAIN IN BELGIUM; 10,500 ARE CAPTURED

HAVRE, Oct. 5.—The Belgian army, which is attacking with the British on the Flanders battlefield, has advanced nine miles on a twenty-five-mile front. Belgian war office announced today.

The whole of the Flanders ridge is now in the allies' possession. The prisoners captured now total 10,500, while 150 cannon and 600 machine guns and trench mortars have been taken.

The text of the official report reads: "The whole of the Flanders ridge has been captured. We gained nine miles on a front of twenty-five miles."

EXPLOSIONS  
RAIN DEATH  
IN EAST U. S.

(Continued From Page 1)

ported to have been felt as far away as Elgin, L. I., 50 miles from the scene.

The explosions broke windows in the lower part of the city. Fifty crashed in the Broadway side of the Exchange building. Police reported many windows broken on Staten Island.

MARTIAL LAW DECLARED  
IN AFFECTED REGION

Martial law has been declared in the affected area under the command of the Department of the East.

A new series of explosions began at 10:00 a. m. and made the country within a radius of thirty miles of Morgan tremble with the concussion. The terrible explosion was disconcerting in New York, where the occupants of the city hall were thrown into confusion when five of the great doors were violently blown open.

Recent explosions occurred between 10:00 and 10:20 a. m., the last more terrific than all the others.

Lieutenant William Kennel, military attaché at the city hall here, said he was of the opinion that the new explosions were caused by additional gas being blown up from the Morgan plant blowing up.

All reports received indicate that the entire "war" plant, which comprises over 100 buildings, valued at approximately \$15,000,000, will be entirely destroyed.

A state of terror exists today throughout a district within a radius of ten miles around Morgan. Men, women and children are fleeing and entire towns are being evacuated. Several lesser blasts shook the surrounding country between 4 and 7 o'clock.

150 BUILDINGS IN  
GREAT WAR PLANT

Reports received in Perth Amboy early today said that practically the entire plant of the company was wrecked or damaged. One hundred and fifty buildings compose the plant, which occupies practically the whole town of Morgan. The estimated value of equipment and buildings is \$15,000,000.

All roads to the devastated scene are guarded by troops from Camp Vail.

Many stories of heroism were told by the injured, who were rushed to South Amboy, Perth Amboy and other towns in all kinds of vehicles hurriedly pressed into service. A young woman telephone operator at the plant is credited with saving many lives. Her office was about half a mile from the fire. While shells exploded about her she rushed to her post, calling ambulances, physicians, firemen and soldiers. Though windows in the building were broken and her life several times endangered, she refused to leave her post.

THEORY AS TO  
CAUSE OF EXPLOSION

Within a radius of almost ten miles of Morgan, buildings and the ground were dotted with empty shell cases and other debris from the numerous buildings. Hundreds of persons in the territory were apprehensive of the intense bombardment of shells of all calibers.

Many theories as to what caused the explosions were advanced today, but few were given credence. One was that a vat containing T. N. T. and nitrate of ammonia exploded. Another is that an employee dropped a shell.

All parties agreed, however, that the first explosion occurred in the 61 building about 10 o'clock last night. It is estimated that 400 employees were in the building when the first blast let go and it is not known how many escaped.

The employees at the plant work three shifts and number approximately 5000 or 6000, many of them women.

It is believed, however, no women were in the building at the time of the explosion.

Surrounding towns are doing all that is possible today to relieve the suffering of the injured and aid the refugees. Hospitals in Perth Amboy, Newark, Elizabeth, Plainfield, Freehold, New Brunswick and other towns have sent ambulances, physicians and nurses to Morgan.

TRANSPORTS  
ESCAPE PLANT

Many American military transports and loading barges with their cargoes of shells ready for shipment to Europe, lying at the docks near the plant, are being directed by the United States coast guard to the United States coast guard.

The port of the South Amboy coast hospital at South Amboy, N. J., near the scene of the catastrophe at Morgan, N. J., is reported to have been blown off by the force of the explosion. Windows were smashed and plaster was blown from the walls and ceilings. Bodies of the wounded who were taken to the hospital from the scene of the explosion were partially cut by the falling glass. They were removed to Long Branch and Colonia, N. J., hospitals.

Pierce-  
Arrow

Abduction of Girl Is Scouted  
Dow Case Presents New Puzzle

Accusations from Denver that Mrs. F. A. Dow, said to be a suicide, is the victim of a plot having as its object the abduction of her daughter, Mrs. B. M. Thomas, 423 Pearl street, Denver, have added to the mystery of the case. The Oakland police are inclined to believe there is exaggeration in the telegram from Denver charging the abduction plot.

Word that Mrs. Dow had committed suicide was conveyed to the police by three men, U. G. Richards, J. E. Kentfield and Everett Dowdell. The San Francisco police also were informed and a search along the ocean beach resulted in finding a woman's handbag, containing a bottle partly filled with chloroform, a small sum of money, a safety vault key receipt and a note to notify Mrs. Thompson at the Denver address that the body of the writer would be found in the ocean.

This word was sent to Mrs. Thompson and the result was a telegram received by the police signed "DECEY IS RETURNED TO."

"Chief of Detectives, Oakland, Cal.," Regarding telegram sent by Richards to the San Francisco police, Colo., relative to supposed suicide of Mrs. Dow, suspect same is decoy for purpose of getting Mrs. Thompson to return to Denver. The attempt to abduct Mrs. Thompson is accomplished this time. Be sure Richards and Kentfield don't put it over. Details chief detective here if you want it.

The other telegram was from Mrs. Thompson herself and read as follows:

"Received telegram from V. G. Richards as follows: 'Indications are your mother committed suicide. Body not yet found. Come immediately.' Please investigate and send me full particulars. Am awaiting your reply. Mother is Mrs. F. A. Dow, 2337 Tenth avenue, Richards is with E. K. Wood company. Reply please with full details."

"MRS. B. M. THOMPSON," Richards, who is a member of the

INFLUENZA IS  
MIED HERE;  
PRECAUTIONS

With the sixteen cases of Spanish influenza which have been reported in the Eastbay cities assuming but a mild form there will be no quarantine declared for the present except to the individual patient. The six cases reported to the Oakland Health Department are confined to strangers entering the city. No new cases beyond the eight already reported have developed in Alameda has reported two victims of the epidemic. According to Dr. Kirby Smith of the Oakland Health Department, the city need not be alarmed over the spread of Spanish influenza as every precaution is being taken.

Surgeon-General Blue sent a representative to cities threatened with the epidemic to check its spread through churches, schools, theaters, public institutions. In Washington the civil authorities have called upon the clergy of the city to discontinue all church services until further notice.

Civil authorities in Oakland, Berkeley and Alameda are agreed that such action is necessary in the case of the influenza as every precaution is being taken. The death rate in army camps at home for the week ended September 27 was 24.1 per thousand, an increase of 30 per cent over the preceding week and was due to influenza and pneumonia, the public health service week among the soldiers in the United States army camps.

MUST ISOLATE CASES. Upon receipt of the following communication from the State Board of Health, strict compliance with the laws contained therein will be required of the health officer.

"Under section 2979 of the Political Code, influenza is hereby made reportable and isolatable in California. You are therefore authorized to require the isolation of cases appearing in your community, being confined in this manner to check the rapid spread of the disease, which otherwise appears inevitable. All cases should be reported on the regular weekly report blank, the same as any other cases of communicable disease.

"Spanish influenza appears to be the same infection which has previously visited this country in epidemic form. The term 'Spanish' has been applied to it during its present appearance by reason of its ravages in Spain prior to its extension to the rest of Europe and now to the western hemisphere. The disease in the present pandemic seems to exhibit unusual virulence, and is extremely prone to pneumonia complications. The gravity of the situation in the eastern seaboard prompts us to adopt all the measures that are at our command for its control on this coast.

"The co-operation of the citizens and the doctors in reporting all cases of Spanish influenza, or suspected cases, will be appreciated by the Health Department."

KIRBY SMITH, Health Officer.

WARNING ISSUED. Dr. F. F. Jackson, commissioner of public health and safety, issued the following today:

"To the Public: Inasmuch as the threatened invasion of Spanish influenza is the most serious problem we have faced in years from a medical standpoint, I desire to warn our citizens to use every precaution to guard against contracting this disease.

"As preventive measures are the essentials to observe I would advise all our citizens to take the most careful care of the mucous membranes of the mouth and throat and nasal passages, which can be done by the use of a spray of the various well-known antiseptic solutions, namely: Dobson's, Listerine, Dr. Williams' solution, or eucalyptol.

"I would also advise the keeping of the general system toned up to increase the power of resistance. As one of the primary symptoms of this disease is sneezing I would advise avoiding close contact with anyone sneezing, and particular care should be exercised to avoid sneezing or cold, or getting wet. Special care should be taken to keep the feet dry. All persons sneezing should be promptly concerned with the following citizens to cover their faces with their handkerchiefs."

CHASE GETS  
5 YEARS FOR  
MAIL FRAUD

Five years in the federal penitentiary at McNeil Island was the penalty meted out to William M. Chase, alias James Jordan Worthington, and a suspension of judgment for sixty days for the codefendant, Mrs. Helen Carl Belmont, alias Ament, for their participation in the "Little Children of the Poor" and "Community Day Nursery" swindle, by Federal Judge M. T. Dooling today. The third defendant, Mrs. Lulu Westphal-Capell, was found not guilty by a jury Thursday.

A plea for clemency was made by Attorney Walter Duane when the cases of Chase and Mrs. Belmont were called for judgment. In making sentence, Judge Dooling said:

"I am not without sympathy for this girl. She has apparently supported herself since released on bail by soliciting for magazines and working nights as an usher in a motion picture theater. She went to work for this man originally for \$5 a week and has shown a desire to be independent. In her case judgment is suspended for sixty days until it can be determined what to do with her.

In the case of Chase, however, if you commend him to my sense of justice, you present him to a hard proposition. He set out to defraud (trustable by working upon its sympathies and thought he could go through life fleeing people. Judgment in his case is that he be confined in McNeil Island for five years on the eighth count of the indictment of using the mails to defraud and two years on the conspiracy count, sentences to run concurrently."

GERMANY PLANS  
NEW PEACE MOVE

To Liberty Loan Committeemen and Workers:-

There is one outstanding fact in Oakland's Fourth Liberty Loan drive---

Oakland's quota is \$13,000,000.00. Think, talk, eat, act on that fact--- but do not sleep on it.

\$13,000,000.00.

\$13,000,000.00.

\$13,000,000.00.

But it is not GIVING \$13,000,000.00. It is INVESTING \$13,000,000.00.

Investing \$13,000,000.00 means that \$13,000,000.00 with interest will be returned to Oakland citizens. It means that every \$50 and \$100 and \$500 and \$5000 bond buyer is putting that much of HIS money into a National savings bank.

One Liberty Loan worker puts it like this:- "When you put money into any savings bank you do not wait until you have a hundred dollars before you begin to save. You put in \$2 this week, \$5 next week, \$4 one day and \$10 another day. This saving comes out of your FUTURE earnings. How else can you save?"

And you committeemen who have this drive on your hearts are not asking Oakland citizens to invest this \$13,000,000.00 quickly and fully in order to earn the plaudits of an admiring Nation for Oakland.

Liberty Bonds are for a cause that is bigger than Oakland, bigger than California, bigger than America---it is civilization-big! Oakland does not matter; Alameda County does not matter.

But RAISING \$13,000,000.00 is your concern.

There seem to be thousands of Honor Day buttons on our streets, there are many, many 100% Honor Emblems in our business windows---but we yet have nearly TWO THIRDS of that \$13,000,000.00 to raise---13 days more in which to raise \$8,500,000.00.

The task is simple---that's why it is hard. People know what Liberty Bonds are for. People know what the war is about. People want victory, they want peace. But we have \$8,500,000.00 of that \$13,000,000.00 yet to raise.

\$13,000,000.00. That's your job. \$13,000,000.00. That's my job. \$13,000,000.00. That's Oakland's job. We WILL lend civilization \$13,000,000.00. We have raised only \$4,800,000.00 to date---\$8,500,000.00 to go.

JHK/EH.

*Joseph R. A. King*  
Executive Chairman,  
Fourth Liberty Loan.

*Lectures to  
Be Given on  
War Topics*

The board of trustees and congregation of the First Unitarian church, Fourteenth and Castro streets, have secured Frederick Vinling Fisher, former president of community campaigns, State Council of Denmark, to deliver a series of addresses on "War and Religion" at 11 o'clock on the Sunday mornings of Oct. 10, 17 and 24.

Patriotic people of all churches and of no church are invited to hear these addresses and messages on most important themes of the day. Beginning at 10 o'clock hour. Free tickets to the full capacity of the church have been issued for the opening day, "War and Religion," and are procured of H. A. Whitney, room 120, First National bank building, phone 2-1200. On Oct. 17, speakers will be speakers, merchant tailors, 1207 Broadway, or at the booth of the Oakland Phonograph company, 1207 Broadway, and manufacturers' pavilion at the Land Show.

After 11 o'clock all seats unfilled will be thrown open to all, whether having tickets or not.

**COMING EVENTS.**  
 October 6—Daily Day program at 11 o'clock at Shattuck Avenue M. E. church.  
 October 6—Special meetings at First Christian church, Oakland, by Howard Fager Evans, music company.  
 October 10—Annual meeting of Woman's Foreign Missionary Society of Grace Methodist church, Twenty-first and App streets, San Francisco.  
 October 12—Columbus Day celebration by Knights of Columbus.  
 October 12—Annual communion of Oakland Knights of Columbus at St. Elizabeth's church, Fruitvale, at 8:30.

## THE FALL OF DAMASCUS.

Ally operations in Palestine may possibly result in Turkey suing for peace and quitting her Teutonic partners in the war. General Allenby's forces are now north of Damascus and making their way toward the important seaport of Beirut. It is not improbable that the British Mesopotamian army will proceed westward from its present position north of Baghdad and form a juncture with the army of Palestine. Such an outcome would be followed by an important movement northward to the Caucasus and in Armenia. These converging lines would be so drawn as to hem the Turkish and German forces in a narrow area along the Bosphorus and the Black Sea. If Turkey does not surrender before this development in the campaign in Asia her capitulation will then be inevitable.

But aside from future possibilities, the Palestine campaign of General Allenby already has reached astonishing dimensions and accomplished most important things. With the capture of Damascus Wednesday he completed the occupation of over half the vilayet of Syria, including all of Palestine. About 8000 square miles of territory has thus been recovered from Turco-German domination.

The taking of Damascus was the culminating event in a brilliant operation that has thrown the enemy out of the historic Holy Land country. This city is one of the richest and most important in the Ottoman empire and its loss will be a serious blow to the Turks. It may well fill them with despair and a desire to end the fighting. Before the war started Damascus boasted a population of 150,000. It is situated on the River Barada (the Abana of the Bible), which irrigates and renders fertile an area of over 300 square miles. In this rich district are over 140 villages, all of which have been taken from the Turks and their German masters.

Romance and historic glory are not lost on the Oriental mind and the fall of Damascus has, it may safely be concluded, caused a sensation in the Near East. Another dream of German invincibility has vanished. Damascus is considered one of the oldest cities in the world. Josephus says it was founded by Uz, son of Aram, and it was a noted place in the days of Abraham. Later it became the scene of the story of Naaman, the leper. Among the oldest architecture is the walled city which dates from time of Alexander or earlier.

Another very old landmark is the *Via Recta*, or "Street called Straight." Along this street, where so many crooked things have passed, Tamerlane, the "Wild Beast," ghostly but amateurish comrade of the modern Hun, rode before he murdered the inhabitants, sacked and burned the city. Given the time, the Germans would have made Tamerlane a memory of knightly consideration.

Damascus has ever been important in the religious history of the world. It was visited by St. Paul during the reign of King Aretas the Arab and in 325 A. D. it sent seven suffragan bishops to the council of Nicea. Both Arabs and Mohammedans have made it an important religious center. With "Tino" the Greek, they must now feel a scorn for the Kaiser's promises of protection. The moral effect of the capture of Damascus cannot be overestimated.

## VANISHED DREAMS.

An exposition of chemical industries has just been held in New York city which was typically national in character and the information it imparted. It told a dramatic story of progress in the chemical industry in this country during the last five years, and compared favorably with the recent exhibition in London of British scientific products.

The New York exposition led the *Evening Post* of that city to observe that Dr. Berneger and other Germans who have expressed the belief that after the war the Allies' dependence on German chemical products would force them to exchange foodstuffs and raw materials would have profited by a visit to it. Potash, for example, has comforted Germans thinking of after-war business. On this point the *Post* says:

"We have found potash in Nebraska and California and are making it of Pacific kelp; the British have found it in Saskatchewan, and deposits have been discovered in Spain, Portugal, Brazil and Abyssinia. The Germans fancied we could never build up our own dye industry, but we and the British are now independent of them.

Laboratory chemicals, drugs, photographic chemicals, perfumes, optical glass, commercial chemicals, we and the Allies can supply for ourselves and for export."

An official of the exposition explained that since 1914 there has been invested in the United States nearly \$387,000,000 private capital in chemical industries, while the federal government has become the largest chemical manufacturer in the world. It is predicted that when Germany attempts to trade on her chemical monopolies she will find that she is trying to bargain with something that has vanished.

## CONSERVATION OF PAPER.

The committee having in charge the conservation of paper is making some interesting arguments to arouse the public to a proper realization of the importance of saving in this direction. Before the war paper makers manufactured paper so cheaply that lavish consumption of it was encouraged. Now they find it so expensive that they conduct propaganda to restrain consumption, and are restricted at that by the Federal authorities. The government wants all the sulphur, chlorine and caustic soda that it can get for war purposes.

If every woman who orders at the grocery or delicatessen store would waive the wrapping, especially of package goods or those put in containers, thousands of tons of materials essential in the manufacture of munitions, poison gas and other war necessities would be saved. One of the circulars on this subject advises the householder not to be ashamed to carry home a bottle of milk undisplayed by the usual paper bag. It even advises the preservation of paper bags and reusing them in the many instances where they have not been soiled. The explanation is pointedly made that the government needs cooperation in its necessary restriction of paper-making, and that it needs paper for remanufacture into shell wrappings, for packing soldiers' food and clothing, for questionnaires, for records, correspondence, soldiers' letters and many other uses in connection with the war.

Every sheet of white paper unnecessarily used lessens the available supply of chemicals for the manufacture of "T. N. T.," the most powerful explosive used in the war. The War Industries Board is asking for more chlorine, which is the bleacher for white paper, than can be manufactured. Therefore use "war paper." It is cream or yellow. Higher grades, fancy stationery, come in varied hues. Materials used in their coloring are obtained from a basis of intermediates which are necessary in the manufacture of munitions and war chemicals. Cream colors or yellowish tints are not only more patriotic, but more economical. Interesting facts about paper are given in the effort to induce economy and care in its use. Waste paper of all kinds can be utilized in making new paper or paper board. The material from which ordinary pasteboard boxes are made is manufactured from paper scraps gathered in stores and other places. Newspapers make a better grade of board, known as news board. Wrapping paper mixed with sulphate pulp is used in making strong chip board, from which shipping containers are made.

Every household should save all of its old paper and rags, as well as old rubber, leather and every fabric scrap, and dispose of them through any of the channels ready at hand, preferably the Red Cross, for the government has urgent use for all that can be gathered.

Tomorrow night will mark the close of the Oakland Land Show. This exhibition has reflected in a creditable manner the enterprise of Oakland citizens. It has been of vast benefit to the community and to the State. It has been a comprehensive exhibit of California products ably administered. Thousands of Eastbay citizens, and visitors from other sections, have received valuable instruction and information and the exhibitors of the various products have every reason to be satisfied with their participation in the show. Those who have not seen the exhibit have neglected opportunity. They should visit it today or tomorrow if for no other purpose than to gain some knowledge of what can be done in large way in this community.

The stopping or curtailment of deliveries by tradesmen, the elimination of the credit system, and the general abandonment of the many devices that were resorted to to gain and hold trade enables us to see how we were coddled before these changes were put in effect. And it was all to small purpose. Every trade service adds to the cost. Tradesmen were not blamable, for their customers had become exacting and at the slightest inattention were likely to transfer their custom to others who were more than ready to humor every whim. Much of the friction of living and some of the cost will be eliminated if the former habits of querulous and exacting demands are not resumed after affairs become normal again.

The people of Nevada are fortunate in having a friend at court. Mr. Raymond T. Baker, Superintendent of the United States Mints, was a popular official of that State in other days, and though he has fared far and importantly elsewhere, no doubt has a warm place in his heart for the sagebrush commonwealth, as so many do who have dwelt there and had to do with its affairs. It is reported that he may reopen the mint at Carson City. The people of Nevada took it very hard when the institution was closed, and they will without doubt be correspondingly elated should it be started up again.

## NOTES and COMMENT

The news has arrived that the bill authorizing exclusion and deportation of aliens who are members of anarchistic organizations has been approved by the Senate and sent to the President. It is hoped that it will be vigorously administered. We have been immensely amiable as to such persons.

Santa Cruz mayor once said by proclamation that under certain contingencies he would resign. One of the town's commissioners, claiming that the contingencies had arrived, demanded that the offer be made good. Illustrating how embarrassing idle talk may turn out to be.

The provisions to safeguard banks are not yet impregnable, as the Santa Rosa instance shows. It does seem queer, however, that such a bad failure could be possible, with the United States standing guard, especially as some of the acts leading up to the catastrophe had origin two years ago.

Not a great while ago the Huns were bullying the Turks. Now the Turks are putting on airs with the Huns. They may realize that quitting will leave them in a bad position, but evidently know that it will leave the Huns in a worse one, and as a consequence are making impromptu demands. It is a natural outcome of such an alliance among such elements.

The Federal woman suffrage amendment has been put back on the Senate calendar for another effort. It will not be a good bet that the President does not round up that other vote.

When the Frankfurt Gazette comes right out and says the situation is grave there is a hunch that the German home folks are sensing the situation.

The theory that the Hindenburg line was a barrier impossible to get over has been made ridiculous. All of the allied armies have walked across it very much as though it was a chalk mark.

The Germans are deporting residents of Alsace, fearing an uprising. The Germans have a good working idea of how the Alsacians love them after fifty years' domination.

Maximilian of Baden is the new chancellor. He is moderate, and is evidently considered a fine goat, while herds of which will be necessary to account for the reversals.

The fact that 40 per cent of the men in the last draft have waived claims for exemption appears to bear out the fear of the railroad and other administrators that many needed workers who should claim exemption will not do it, from a sheer desire to go over and take part in what is going on. There must be great surprise in Hindenburg that these Americans whom they were advised would not fight are acting that way.

Considering the sensitiveness they manifest as to the golf suggestion that the Hohenzollerns be christened the "Hollerenzollerns" isn't bad at all.

Amenities in the Southland, exemplified by the San Diego Union: "Los Angeles man, it is rumored, has married his mother-in-law. Oh, well, Los Angeles has to do some novel thing in a while to keep from losing her place on the map."

Retrospect by the Colusa Sun: "There is something strange now about politics that cannot meet the situations through which they must swing necessarily. This appeared plainly when eleven candidates sought the governorship. Some quit the ring before they were halfway around, while others gave up the game a little ahead of the good time they were to have had. Priests have seemed unsteady and wriggling about until the coast was cleared by convulsion."

## SPIRIT OF THE STATE PRESS

California has 5500 slackers being sought by the police and the department of justice. But California has 150,000 men at the service. Back them with your dollars and have a share in firing off the big guns and chasing the Huns over the Rhine!—Stockton Record.

Mayor Rolph has appointed a committee to take charge of the celebration of Discovery and Liberty day on Saturday, October 12. A permanent organization has been effected with Supervisor E. J. Bran don chairman, Edward Rainey vice chairman and Margaret McGovern secretary. Plans for the day include a pageant representing the landing of Columbus at the foot of Van Ness avenue. Columbus will be received by Queen Isabella and Columbus at the Auditorium.—San Francisco Journal of Commerce.

Many a movie fan, especially of the feminine gender, views with alarm the news that scarcity of men heroes in the "grand drama" has forced movie directors to go to Hollywood and otherwise camouflage her so as to pass as a dashing young cavalier, or whatever it is that jumps from twentieth story windows on to faithful Dobbin's back or dangles by an invisible cyrobal in the Grand Canyon chasm.—Hanford Sentinel.

The appeal of the State Automobile Association to all motorists to stop and remove glass from the highway whenever they find any is worthy of wide compliance.—Chico Enterprise.

## THIS DAY IN THE WAR

Oct. 5, 1917: British announce capture of 4444 prisoners.  
Oct. 5, 1918: Russians renew offensive in Turkish Armenia.  
Oct. 5, 1915: Russians announce they have abandoned their five-months' retreat, and are turning on the enemy on the Riga front.  
Oct. 5, 1914: Allies retire slightly near Perrone.

## THERE IS NO PEACE THAT WAY, WILHELM!

## WEATHER REPORT

**Forecast.**  
Oakland and vicinity and Northern California: Tonight and Sunday, unsettled, probably showers; gentle southwesterly winds.

Southern California, Santa Clara and San Joaquin valleys: Tonight and Sunday, unsettled, probably showers; gentle northwesterly winds.

Sacramento valley: Tonight and Sunday, unsettled, probably showers; gentle southerly winds.

Nevada: Unsettled, probably showers; cooler tonight.

Washington and Oregon: Tonight and Sunday, rain; moderate southwesterly winds; cooler east portion tonight; fresh southwest winds along the coast.

**Conditions.**  
The pressure is low this morning over practically the entire country, except the Gulf and Atlantic states.

A disturbance of considerable energy over British Columbia has caused rain on the Pacific slope and high winds off the north Pacific coast. Southeast storm warnings were ordered displayed at 6:40 p. m. yesterday from Cape Mendocino north, which were changed to southwesterly winds at 7 a. m. today. Maximum wind velocity of 72 miles per hour at North Head, 24 south of Seattle, 28 southeast at Eureka, 28 south at Point Reyes and 42 south at Mt. Tamalpais were reported. The weather is warmer on most of the Pacific slope and east of the Mississippi river and cooler in the Rocky mountain, northern and central plains states.

Pressure is increasing rapidly along the Pacific coast, but conditions are still unsettled and favorable for showers tonight and Sunday.

## BOLSHEVISM A WARNING.

The Russian specimen of Marxism will be noted by the entire nations, and will govern their conduct in times to come. Promoters of Socialism, fomenters of domestic discord, stirrers up of disaffection, will not henceforth have the large latitude and license they had in democratic countries before the war. These gentlemen, these Bolsheviks, have no more use for democracy than for any other form of government. The cry of "Loot!" must be silenced with the bayonet or the rifle shot the moment they utter it. The Russian Bolsheviks are not going to have a revolution in the future. The Russian Bolsheviks have prejudiced the free peoples of the earth against the fraternity who want the larger freedom to rob and murder and to their savage hearts' content.—Toronto Mail and Empire.

## TODAY 20 YEARS AGO

California State Grange holds twenty-sixth annual session in Odd Fellows' hall. A street car excursion to Berkeley was made this morning by the delegates.

Mrs. Norwood, granddaughter of Francis Scott Key, was the guest of Oakland Red Cross. Reports were made that women of the executive board were overworked and ill and it was impossible for many to attend the conference.

The engagement of Miss Mamie Kent and J. Malcolm Graham is announced.

Putnam Griswold directed a concert at the Y. M. C. A. Griswold, Mrs. Lena Carroll Nicholson, John W. Metcalf, Mrs. Margaret Turner, a teacher of Melba, participated. A Peace Jubilee was held in Denver with returned soldiers, local military and other organizations, and a band of 750 pieces participating.

## THE "UNCILORFORMED."

Statistics show that more than 50 per cent of the people of California pass the half-century mark before death overtakes them. That is far beyond the average age for most states and the beauty of it is that one year spent in California is worth more in health and happiness than two years anywhere else. For seven years past the Old Folks' Picnic Association of Los Angeles has been holding annual reunions in near-by parks. Last year the picnic was attended by 1500 persons, 200 of the attendees being past 50 years of age.—Los Angeles Times.

## THE JESTER

**Easily Remedied.**  
Diner—I can hardly find this beef-steak on my plate.  
Waiter—I'll bring you a smaller plate, sir.—Exchange.

**His Proper Place.**  
Sergeant—You've fallen out of line now less than five times. You should not be in this regiment at all. Recruit—Where should I be?  
Sergeant—In the flying corps, and you'd only have to fall out once.—London Opinion.

**Closer Than a Brother.**  
"Another difference between plants and animals," said the teacher, "is that plants are not susceptible of attachment to man as animals are."  
"How about burrs, teacher?" piped a small boy who had passed the summer in the country.—Boston Transcript.

**Force of Habit.**  
While in a certain government office recently, Sir Evan Jones, the British transport board chairman, overheard the following dialogue between two fair typewriter tappers: "Isn't it terrible the way we have to work these days?"  
"Rather! Why, I typed so many letters yesterday that last night I finished my prayers with 'yours truly.'"—Vancouver (B. C.) Province.

# LET YOUR DOLLARS WORK FOR LIBERTY!

## FIVE MILLION MARK IS NEAR IN BOND DRIVE

Oakland has not reached the five-million mark in its journey toward the \$13,320,350 quota for the Fourth Liberty Loan, but plans are being arranged that are expected to bring the daily average to a point that will assure success.

One of the most enthusiastic meetings heard of at the women's committee at noon today in the Hotel Oakland, Congressman J. Arthur Elston was the principal speaker, and he left his hearers with a deepened determination to leave nothing undone in their power to swell the bond subscriptions. Representative Elston, convinced his hearers that while the allies are sweeping everything before them now, there is much fighting to be done, and the belief held by too many that victory is so near the government will not need the money for this Fourth loan is without foundation.

**STAYING ON BOND DRIVE.**  
The following table shows the present status of the drive in Alameda county:

District.	Quota.	Amt. Subscribed to Date.
Oakland	\$13,320,350	\$4,825,850
Berkeley	2,351,700	1,814,550
Alameda	860,150	712,100
Emeryville	86,550	51,300
Hayward	335,950	128,150
Livermore	258,700	181,750
Pleasanton	168,850	52,000
San Leandro	390,500	194,700
Walshing Tp.	138,050	148,100
<b>Co. total.</b>	<b>\$16,191,500</b>	<b>\$8,072,100</b>

**HEADING OVER TOP.**  
Piedmont, which in the Fourth Liberty loan drive has been regarded as a separate district, went "over the top" with its Honor Flag yesterday afternoon by W. W. Garthwaite, general chairman of the Liberty loan committee. The ceremony took place at the Piedmont city hall.

The total number of subscribers in the county to date, up to and including Friday night, is closing out the books, was 60,000. For the past two days the number of subscribers in the county was exactly 4929 new subscriptions each day.

**WORKERS ENTHUSIASTIC.**  
More than two thousand men Liberty Loan workers attended the meeting held last evening at the Oakland Technical High school, and which was called by B. F. Shapiro, chairman of the home canvass department of the Liberty Loan committee.

Patriotic enthusiasm was at a fever heat throughout the evening. This found expression in the adoption of resolutions condemning all business men and individuals in Oakland who did not buy Liberty Bonds of the fourth issue, unless good and valid reason could be shown for such failure of purchase.

During the meeting a general demand was made that the names and addresses of every person be published who refused to buy Liberty Bonds unless such a person had good reason therefor. Shapiro, who presided, pointed out that the Liberty Loan committee was not permitted to spend money for the publication of such names or for other display advertising space in the daily newspapers, and that funds for such purposes must be provided by popular contribution.

**MONEY IS OFFERED.**  
Hundreds of men immediately volunteered to supply the money to be used for the publication of such names. Chairman Shapiro stopped the voluntary subscriptions with the explanation that before such were taken the movement would have to be stopped.

**GEORGE WALSH, popular athletic film star, who will be seen in "On the Jump," at the American, commencing tomorrow matinee.**

The double bill at the American commencing tomorrow matinee is headed by George Walsh in "On the Jump," the popular athletic star's latest comedy. The second feature of the program is also a light comedy-drama, "Just for Tonight," starring Tom Moore. An Animated Weekly completes the bill.

The performances tonight conclude the engagement of Bert Lytell in "Boston Blackie's Little Pal," at the Grand Brookwell in "Kultur."—Advertisement.

## HIS IDEA LIBERTY BONDS

Liberty Bonds or Bondage! Ste up to you to choose! B.M. Lindsey

## SALOONKEEPER, PATRONS HELD UP

Three armed and masked men held up E. F. Lemis, owner of a saloon at 5808 East Fourteenth street, and two patrons of the place last night and obtained money and jewelry. From Lemis they took a diamond ring and gold watch, and \$25 from the cash register. Charles Jewell and James McGee were robbed of \$1 and a registration card. McGee had \$50 in currency in an inside pocket, and half a sack of potatoes by the bandits. Reports of thefts and burglaries made to the police include the following:

C. H. McGooley, 1005 San Pablo avenue, \$30 taken from room.

William Macauley, 507 Linden street, watch stolen from room.

R. A. Feltin, 721 Sixth street, attempted burglary.

Emil Romandoli, 233 Broadway, room entered and \$25 taken.

C. A. Deple, 3777 Piedmont avenue, store entered, nothing taken.

Mrs. Oliver Harpley, 4206 Terrace street, attempted burglary.

**Employees of Owl Drug Co. Buy Bonds**

The employees of the Owl Drug Company in Oakland and San Francisco have made a splendid showing in the fourth Liberty loan. Every employee in each one of the ten stores has purchased a bond—without exception. The fact that some of them are still relying on their third issue purchase.

The total amount purchased is more than double that of the third issue. The Owl Drug Company has helped to make this record possible by financing the purchase and accepting small weekly installments from the employees.

The general approval of the committee. Resolutions were adopted at the meeting by which the two thousand old men organized themselves into a permanent war service league. Resolutions were passed which made it obligatory upon every person present to not patronize any local business establishments that did not have a 100 per cent card on display in their places of business, or could not or would not, upon demand, prove that they were 100 per cent institutions in regard to the purchase of Liberty Bonds.

The resolutions also call upon every business man in the city to see that the various stores through the city to whom such a business man delivers supplies is a 100 per cent home and has on display an Honor Flag. A clause was included in this phase of the resolution which protects patriotic citizens from unjust discrimination in the event that they really are unable to afford a Liberty Bond.

This protection includes the listing of their names with the war service league, so that no one in the league would inadvertently be guilty of unfair discrimination.

At the Liberty Loan headquarters this morning it was stated that many of the majors and captains who were present at last night's meeting had come into the headquarters and voluntarily increased their own subscriptions which practically doubled them. Those who so increased their subscriptions stated that it was their patriotic duty to do so.

In as many instances as possible induce the original subscribers to double their subscription.

Four-minute men and well-known local public speakers who were at last night's gathering say it was most patriotic.

**Jumping Auto At Idora to Thrill Crowd**

Here's a sensation to stir tired nerves.

A jumping automobile!

An automobile that will leap, over three houses set in a row.

This is the thriller promised Idora Park throngs tomorrow, promptly at 3:30 o'clock.

Speeding 50 miles an hour, the machine will shoot down a long incline and jump skyward 25 feet, clearing three houses and covering a distance of 50 feet in the leap.

The event is FREE in the stadium at Idora Park tomorrow afternoon.

The event is FREE in the stadium at Idora Park tomorrow afternoon.

The event is FREE in the stadium at Idora Park tomorrow afternoon.

The event is FREE in the stadium at Idora Park tomorrow afternoon.

The event is FREE in the stadium at Idora Park tomorrow afternoon.

The event is FREE in the stadium at Idora Park tomorrow afternoon.

## LADDER CLIMB IS BIG FEATURE OF NIGHT SALE

At least \$25,000 worth of Liberty bonds will be disposed of tonight at a public street sale that is to be conducted in front of the headquarters of the Liberty loan committee in the city hall, according to a plan originated by Fire Chief Elliott Whitehead of Oakland.

Actual subscriptions for Liberty bonds will be taken by a score of firemen who will circulate through the crowd. The auctioneers for the evening are B. F. Shapiro, chairman of the home canvass department, and George Dooley.

When the quota of \$25,000, which has been fixed for the evening's effort, is attained a young woman will leave the Washington street entrance of the City Hall and, followed by spot lights, climb to the topmost rung of the fire department's 85-foot ladder, pause a moment and then climb down the other side of the ladder.

The feat of the young woman will be the signal to the crowd in the streets that Chief Whitehead's scheme went "over the top" and that at least \$25,000 worth of Liberty bonds have been added to Oakland's total for the day.

In addition to the ladder-climbing feature of the young woman every time \$500 worth of bonds has been disposed of a fireman will advance one rung higher up on the ladder, a different fireman replacing the one that made the preceding advance, until the climax of the evening is reached.

Preparations for the celebration of Liberty Day, which occurs on October 12, are under way by the Liberty loan committee. Max Horvinski has been appointed general chairman of the day's activities and through the cooperation of Clara H. Woods, superintendent of music of the public schools, has arranged for a marching band to play in front of the school children of the city. The parade will take place in the afternoon and will be followed by a song festival in the City Hall Plaza.

At the evening of the national women's Liberty loan committee will hold a torchlight parade which will terminate at the Civic Auditorium, where a mass meeting will be held at which Marie Dressler, the film comedienne, will be the principal speaker of the evening.

**Mrs. Phoebe Hearst Buys \$101,000 Bonds**

One of the largest subscriptions to the fourth Liberty loan in California yesterday was that of Mrs. Phoebe A. Hearst of \$101,000, the district campaign leaders announced today. Mrs. Hearst asked that \$75,000 be allotted to San Francisco, \$20,000 to San Luis Obispo, \$5,000 to Pleasanton and \$1,000 to McClure.

**STATEMENT OF THE**

**Ownership, Management, Circulation, Etc.**

Required by the Act of Congress of August 2, 1912.

**OAKLAND TRIBUNE**

Published Daily, Including Sunday, at Oakland, California.

**FOR OCTOBER 1, 1918**

State of California, ss.

County of Alameda, ss.

Before me a Notary Public in and for the State and county aforesaid, personally appeared B. A. Forsterer, who, having been duly sworn according to law, deposes and says that he is the General Manager of the Oakland Tribune, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 2, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor and business managers are:

Name of— Publisher, JOS. R. KNOWLAND. Managing Editor, JOS. R. KNOWLAND. General Manager, B. A. FORSTERER.

2. That the owners are: (Give names and addresses of individual owners, or, if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent or more of the total amount of stock.)

TRIBUNE PUBLISHING COMPANY (Owners), Oakland, California. Stockholders: JOS. R. KNOWLAND, Oakland, California; B. A. FORSTERER, Trustee for Erminia Peralta Dargle, Oakland, California.

3. That the known bondholders, mortgagees and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages or other securities are: (If there are none so state.)

The TRIBUNE PUBLISHING COMPANY has no outstanding bonds, mortgages, securities or indebtedness of any kind.

4. That the two paragraphs next above, giving the names of the owners, stockholders and security holders, if any, contain not only the list of stockholders and security holders, but also, in cases where the stockholder or security holder appears on the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; and that the said two paragraphs contain statements embracing and affirming the full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and that this affiant has no reason to believe that any other person, association or corporation has any interest direct or indirect in the said stock, bonds or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is: (This information is required from daily publications only.)

44,213

(Signed) B. A. FORSTERER, General Manager.

Sworn to and subscribed before me this 4th day of October, 1918. [Seal.] (My commission expires Jan. 7, 1921.)

NOTE—This statement must be made in duplicate and both copies delivered by the publisher to the postmaster, who shall send one copy to the Third Assistant Postmaster General (Division of Classification), Washington, D. C., and retain the other in the files of the postoffice. The publisher must publish a copy of this statement in the second issue printed next after its filing.

EARL KEITH BOONE, suspected of being one of the automobile bandits, who held up and robbed motorists on the skyline boulevard.

## ARMY ORDERED TO SAVE GASOLINE

CAMP KEARNEY, San Diego, Cal., Oct. 5.—Care in the use of gasoline and of Government-owned automobiles and motorcycles is called for in an order issued by the commanding general. It directs all organizations to which such vehicles have been issued that they must be turned into a central garage by 6 o'clock every evening. This will also facilitate inspection and prevent the use of machines by unauthorized persons.

The fact that the officers and enlisted men, to avoid the possible spread of disease, have been ordered not to meet in crowds inside any building, has created some new problems for the Y. M. C. A. Knights of Columbus and other organizations which look after the comfort and morale of the men. As the men cannot go to the Y. M. C. A. buildings to write letters and read magazines, the Y. M. C. A. secretaries made a systematic canvass of company streets, seeking men who wanted to write letters or read fiction, and supplied them with pen, paper and magazines. Arrangements also were made for the sale of express money orders at the tents. A call for extra magazines was sent to San Diego today, the public being asked to contribute.

## ADMITS PART IN SKYLINE ROBBERIES

Admitting knowledge of the Skyline boulevard automobile bandit hold-ups and robberies on the night of September 21, Earl Keith Boone, under arrest in San Francisco, has asserted that another man was the leader and that the latter will get the greater punishment "if he has squealed."

Boone made his admission while being questioned in an attempt to make him confess completely in the murder of Armand Estey, San Francisco restaurant man, who was shot while resisting a hold-up on the night of September 28. Detective Duncan Matheson of the San Francisco police department was cross-examining Boone and asked him concerning the Skyline boulevard crimes.

"If Stanley Barnes has squealed on me for the Skyline job, he'll get more time than I will, for he was the leader," exclaimed Boone. Oakland police say they do not know Barnes, but Boone told Detective Matheson that "the Oakland police can find him if they want to."

Two Oakland detectives will go to San Francisco today and question Boone.

Boone, who was arrested in Truckee, confessed the theft of seven automobiles and snatching a revolver at a San Francisco real estate broker and the latter's two women companions in front of the St. Francis hotel. At the time Boone was returning to stay in the automobile of the real estate broker.

Boone was arrested early the next day but escaped from his captors and drove to San Jose. Then he came to Oakland, where he spent two hours, although he knew that all the police of the bay cities had been asked to look for him.

Young Boone was sentenced to San Quentin last November for the theft of an automobile, but was given a full pardon by Governor William D. Stephens in May of this year.

According to his story, a series of hold-up and automobile thefts in the company with a gang of four other youths was begun immediately following his release. He was arrested at Truckee last Tuesday, returned to San Francisco last night by Detective Nicholas Barron, following a sensational escape from two officers in front of the Mission station Monday night. These officers—John Burke and John Eramy—are under charges for negligence in connection with his escape.

When captured at Truckee young Boone carried a heavy 38 revolver, which had been recently discharged, and one which bears a resemblance, according to witnesses of the Skyline boulevard hold-up, to that used by one of the men and which uses the same sized cartridges as the gun which killed Estey.

## Publicity Remedy Says Father Landlords' Attitude Is Scored

By EDNA R. KINARD.

The women have spoken. Now let the fathers be heard—a father who has experience in endeavoring to find a dwelling place for his children and who was moved to send a communication to the local committee representing the United States Housing Corporation. He writes:

"What have we come to in these times of stress and strife when considerable sums of money are expended in the saving babies to have certain people discourage mothers and fathers. Publicity and plenty of it is the proper remedy, and cases where families are refused on account of children should be reported."

"In view of your present admirable conditions in finding a solution of the present congested housing conditions in our city it is not visible at this time to take up the question of these landlords who have an aversion to renting their homes or apartments to children? It is high time some steps were taken to correct this abuse of privilege and fortunately the states of New Jersey and New York are on the right road."

And then comes this recommendation from the United States Housing Corporation by the Pacific coast office:

If complaints are received that landlords are refusing to take

families with children, it is recommended that a special appeal be made to the preachers, priests and rabbis of such cities. These men should be asked to show their congregations that the winning of the war is dependent on keeping the army supplied with ample munitions, food, clothing, etc. To manufacture these goods and the ships to carry them we must have abundant and contented labor. As the unmarried workmen are increasingly taken away by draft, elder men with families must replace them. These men should not be asked to separate from their families. It is bad for the family, bad for them and bad for the plant or shipyard in which they work. Every munitions and shipbuilding center must find an increasing supply of homes for married men and citizens must therefore be impressed with the importance of opening their houses to families with children, putting the appeal on both moral and patriotic grounds.

UNITED STATES HOUSING CORPORATION. What will Oakland do with its children?

## Berkeley Determined to Cinch Honor Flag

BERKELEY, Oct. 5.—Determined to cinch the honor flag for the city, the fourth Liberty loan committee of \$800 will devote the next 48 hours to "cinching" an honor flag.

The committee has to raise \$550,000 still to attain the quota of \$2,424,700. Chairman W. F. Morrish reported a total subscription up to last night of \$1,814,550.

In their efforts to raise the quota by Tuesday the committee will canvass every house in the city. Those who have bought bonds of the fourth issue will be asked to subscribe for the more on the installment plan and those who have not purchased will be shown that they cannot afford, on any pretense, to be without at least one bond.

Advocates of the efforts of the committee will be the drive of the Boy Scouts, who began their campaign this morning. E. F. Louideck, chairman of the Boy Scouts, on special duty, who is arranging an honor flag celebration to be held Tuesday night, if possible, has offered to buy \$500 bond from each of the first twenty scouts who dispose of nine.

## Freshmen Buy Bonds to Aid Mills Fund

For the first time in the history of Mills College the tradition of the freshmen camps has been laid in favor of the purchase of a Liberty loan bond. Headed by their president, carrying the American flag, 130 freshmen, each wearing a paper cap of red, white and blue, marched double file into the student body meeting this morning and announced the purchase of the bond to be given to the permanent Liberty loan endowment fund of Mills College. The announcement came as a complete surprise to the sophomore class, who two weeks have been trying to find out the nature of the freshmen hats.

The amount given by the freshmen in bonds brings the total of the bond investment of Mills faculty and students over the \$5000 mark. Mills Hall, on the campus, gave a \$250 bond to the Liberty loan endowment fund of the college and Warren Olney Hall \$100.

Miss Suzanne Throop of the English department of Mills is chairman of the bond committee and is being ably assisted by Misses Marie Podrasnik, Aldine Winham, Marjorie Dismore, Aileen Cunningham, Helen Coleman, Betty Lyle, Madeline Smith, Marjulia Derby, Stella Levinson and Dorothy Binswanger.

## Alameda Near Goal in Liberty Bond Drive

ALAMEDA, Oct. 5.—The slogan for Alameda in her Fourth Liberty Bond drive is "A Million by Saturday Night." Director-General Elmer Johnson says the drive is well along and that the district several days ago, asking them to consult with the canvassers of each district and redouble their efforts in sending Alameda over the top. According to late reports Friday night, Alameda had obtained 76 per cent of her allotment. As returns are coming in hourly, the amount is steadily climbing toward the goal. Alamedans have been untiring in their efforts to secure the city's allotment at an early date, and the members of the committee have worked hard to make the drive a success.

## NEW EXPORT LIST

WASHINGTON, Oct. 5.—In addition to the export conservation list of dates, figs and raisins, as well as dried apples, apricots and pears, effective October 1, 1918, and passed today by the war trade division.

## Maude Fulton asks: "A Successful Calamity?"

The answer should be found in the William Gillette play of that title which Maude Fulton is playing at the Grand Playhouse (formerly the Bishop Theater), at Franklin and 19th streets, next Sunday.

THE PLAY IS NEW TO OAKLAND. It has been a great success in New York, with William Gillette, who wrote it, running for a solid year on Broadway. The author is Claire Kummer, who wrote "Good Gracious Anabelle!"

The theater anticipates extraordinary crowds, for "A Successful Calamity!" Telephone Lakefield 73.

## BOILER MEN AGAIN TAKE HALF HOLIDAY

Five thousand boilermakers, iron shipbuilders and their helpers in the East Bay section laid down their tools at noon today in compliance with orders issued yesterday by the Pacific Coast District Council of Boilermakers and Iron Shipbuilders that the unions affiliated with the organization should work a 44-hour week only, unless double-time pay is given for working on Saturday afternoons.

As a result of their action the shipyards of the East Bay section and at other points embraced within the jurisdiction of the Pacific coast council, are working under a handicapped this afternoon and the government shipbuilding program is delayed.

The action of the local Boilermakers' Union follows a meeting held Friday evening at which it was decided to follow the instructions issued by the Pacific coast council of the order, namely, following the meeting the members were given a printed card which reads as follows:

"To all members of Boilermakers' Local No. 233: By order of the Pacific Coast District Council No. 44 of Boilermakers and Iron Shipbuilders and Helpers of America, 44 hours shall constitute a week's work. This means no work tomorrow afternoon, or any other Saturday afternoon, unless double time is paid. Govern yourselves accordingly."

The order affects approximately 60,000 boilermakers, iron shipbuilders and their helpers, who are distributed among the shipbuilding plants between San Diego and Vancouver, B. C.

None of the other unions affiliated with the Iron Trades Council of San Francisco, which has at least advisory jurisdiction over its units in the East Bay section, followed the example of the boilermakers. The local machinists were at their benches this afternoon in the several shipyards and the members of the local Shipyard Laborers' Union were also on the job.

## OWNERS MUST MUZZLE DOGS OR PAY PENALTY

Dogs must be muzzled, beginning Monday. Unmuzzled dogs will be fined and the owners will be fined. The penalty has been placed at from \$10 to \$50. On September 27 a dog was found with rabies. The city order is a preventive measure following the discovery of the isolated case. Commissioner P. F. Jackson has given the order.

## Says Three Demanded \$1000 From His Wife

Giovanni Alfieri, 1975 One Hundred and Fifth avenue, reported to the police that three men called upon his wife and demanded \$1000 from her. They left saying they would return again and a few days later came back and made a similar demand. The police advised him to turn in an officer if the men returned, but are of the opinion that the visitors were workers in behalf of the Liberty bond campaign and that their mission was not understood by Mrs. Alfieri.

Alamedans have been untiring in their efforts to secure the city's allotment at an early date, and the members of the committee have worked hard to make the drive a success.

NEW EXPORT LIST

WASHINGTON, Oct. 5.—In addition to the export conservation list of dates, figs and raisins, as well as dried apples, apricots and pears, effective October 1, 1918, and passed today by the war trade division.

Maude Fulton asks: "A Successful Calamity?"

The answer should be found in the William Gillette play of that title which Maude Fulton is playing at the Grand Playhouse (formerly the Bishop Theater), at Franklin and 19th streets, next Sunday.

THE PLAY IS NEW TO OAKLAND. It has been a great success in New York, with William Gillette, who wrote it, running for a solid year on Broadway. The author is Claire Kummer, who wrote "Good Gracious Anabelle!"

The theater anticipates extraordinary crowds, for "A Successful Calamity!" Telephone Lakefield 73.

HAILONS AND ALAMEDA BETHLEHEMS IN BIG GAME TOMORROW

Dave Davenport Will Make First Appearance Before The East Bay Fans

Hanlon Boys Back Howard Gregory to Beat the St. Louis Star

By EDDIE MURPHY

Tomorrow afternoon at the Oakland Coast League Park should be another couple of hours of good sport for those dyed-in-the-wool baseball fans. At 2:30 o'clock the Hanlon Shipyard and the Alameda Bethlehem teams will clash in one of the regularly scheduled games of the Shipbuilders' League race, but it will be a game that will have more at stake for the winner than has any other game played by the shipbuilders. The big argument as to whether big Dave Davenport, the ex-St. Louis Brown pitcher, is a better one than Howard Gregory is hoped to be settled by the playing of this game. Davenport, who is rated among the best of pitchers in the big leagues, will make his bow before the east-bay fans when he will step upon the rubber for the Alameda club, the one which has about upset all the dope in the Shipbuilders' League race. It is understood that the result of this game will mean the exchange of many checks between the ball players and their boosters of both clubs, and there is sure to be a real battle when the teams take the field. Charley Carr, vice-president of the Shipbuilders' Athletic Association, and one of the best supporters of the Hanlon club, has opened his purse to back the boys, and has also arranged to have the big band of the Hanlon shipyard on the job.

Players on both teams will be in the game doing all that they can to win for the pitcher that they will be playing. As the Hanlon shipyard has a pitcher among the players of the Alameda and Hanlon teams over their pitchers, and hence the reason for the game being at stake. According to some of the boys that have returned from the East, Dave Davenport is a better pitcher than Howard Gregory is hoped to be settled by the playing of this game. Davenport, who is rated among the best of pitchers in the big leagues, will make his bow before the east-bay fans when he will step upon the rubber for the Alameda club, the one which has about upset all the dope in the Shipbuilders' League race. It is understood that the result of this game will mean the exchange of many checks between the ball players and their boosters of both clubs, and there is sure to be a real battle when the teams take the field. Charley Carr, vice-president of the Shipbuilders' Athletic Association, and one of the best supporters of the Hanlon club, has opened his purse to back the boys, and has also arranged to have the big band of the Hanlon shipyard on the job.

STANDING OF THE CLUBS.

Club	W.	L.	Pct.
Hanlon Shipyard	12	7	.700
St. Louis Browns	10	9	.526
Alameda Bethlehem	7	10	.412
Alameda Bethlehem	5	12	.294

GAMES TOMORROW.

Alameda Bethlehem vs. Moore Park, 2:30.

Shipyard, at Oakland Coast League Park, 2:30.

Bethlehem, at Recreation park, San Francisco, 2:30.

Tractors Are Ready to Meet Steel Boys

Second Game of the Series to Be Played at San Leandro Tomorrow.

This first visit of the Pittsburgh-Columbia Steel Co. team in the bay section since the close of the last Midwestern league season, will take place tomorrow when the Steel boys and the C. L. Best Tractors will clash at San Leandro in the second game of their series to decide the championship between the Mission and Central California leagues. The game, which will be played at the grounds at San Leandro, will be the first of a series of four games to be played between the two teams. The first game was played at San Leandro on September 28, and the Steel boys won by a score of 10 to 2. The second game, which will be played at San Leandro tomorrow, will be the first of a series of four games to be played between the two teams. The first game was played at San Leandro on September 28, and the Steel boys won by a score of 10 to 2. The second game, which will be played at San Leandro tomorrow, will be the first of a series of four games to be played between the two teams.

The first game of the series between the Steel boys and the C. L. Best Tractors was played at San Leandro on September 28, and the Steel boys won by a score of 10 to 2. The second game, which will be played at San Leandro tomorrow, will be the first of a series of four games to be played between the two teams. The first game was played at San Leandro on September 28, and the Steel boys won by a score of 10 to 2. The second game, which will be played at San Leandro tomorrow, will be the first of a series of four games to be played between the two teams.

The Oakland Vampires and the Oakland Lodge of Elks will meet in a game at the Oakland Coast League Park tomorrow night. The game will be the first of a series of four games to be played between the two teams. The first game was played at San Leandro on September 28, and the Steel boys won by a score of 10 to 2. The second game, which will be played at San Leandro tomorrow, will be the first of a series of four games to be played between the two teams.

Tomorrow the Vici Grays' team will travel to San Jose and meet C. C. Bradford's Bears in a game at the San Jose Sports Ground. The game will be the first of a series of four games to be played between the two teams. The first game was played at San Leandro on September 28, and the Steel boys won by a score of 10 to 2. The second game, which will be played at San Leandro tomorrow, will be the first of a series of four games to be played between the two teams.

The San Jose Bears have challenged Tony Jones, manager of the C. L. Best Tractors, champions of the Mission league, to a series of four games. The game will be the first of a series of four games to be played between the two teams. The first game was played at San Leandro on September 28, and the Steel boys won by a score of 10 to 2. The second game, which will be played at San Leandro tomorrow, will be the first of a series of four games to be played between the two teams.

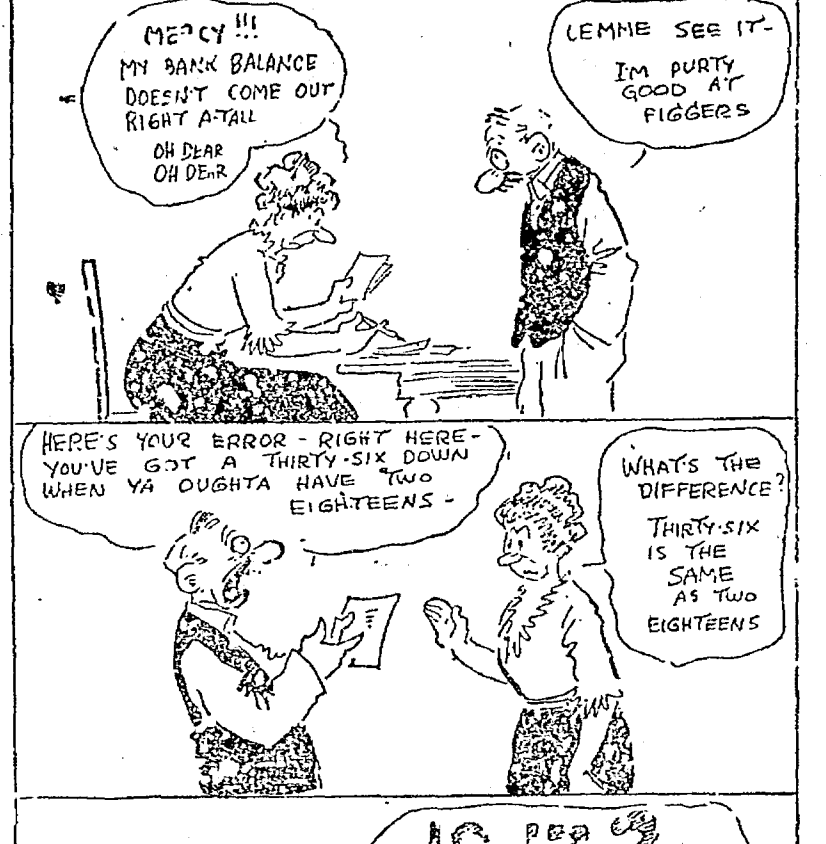

There is nothing lacking in speed in the Oakland Coast League race, but through the class of players does not equal the same number of those players. In a recent game of those players, which was managed by Joe Davenport, and the North Pacific, the following players of note were in the game: Davenport, Brown, and Howard Gregory. The game was played at San Leandro on September 28, and the Steel boys won by a score of 10 to 2. The second game, which will be played at San Leandro tomorrow, will be the first of a series of four games to be played between the two teams.

An All-Star team from the northwest shipbuilders' league was selected to play the Oakland Coast League race, and it was Bud Kelly, the former St. Louis pitcher, that was selected as first baseman. The game will be the first of a series of four games to be played between the two teams. The first game was played at San Leandro on September 28, and the Steel boys won by a score of 10 to 2. The second game, which will be played at San Leandro tomorrow, will be the first of a series of four games to be played between the two teams.

Lefty Swartz, the lad who has been pitching such wonderful ball for the Portland team, is a Portland boy. He is a fine pitcher, and he is a fine player. The game will be the first of a series of four games to be played between the two teams. The first game was played at San Leandro on September 28, and the Steel boys won by a score of 10 to 2. The second game, which will be played at San Leandro tomorrow, will be the first of a series of four games to be played between the two teams.

Harvard's future in football is still undecided. The athletic committee will question the near future to settle the question. At present it is doubtful if the school will have a variety team.

Billy Murray Is Stopped by K. O. Krivosky

Referee Irwin Calls Halt in Third; Krivosky After Meehan.

Knockout Krivosky again showed signs of being on the path that will lead him to a match with Willie Meehan, by last night beating Fighting Billy Murray, the soldier boy of Port McDowell. Krivosky had his opponent in such a bad way in the third round, that Referee Irwin had to step in between the pair and declare Krivosky a winner.

On the night of his bout with Frank Farmer, Krivosky gained the title of "lefty" because of his being so good with his left hand while in training. Krivosky had his opponent in such a bad way in the third round, that Referee Irwin had to step in between the pair and declare Krivosky a winner.
